Hiring Manager

Deloitte US India – Audit & Assurance

Gurugram / Hyderabad

Subject: Application for Audit & Assurance Analytics Specialist Assistant Position Dear Hiring Manager, I am writing to express my strong interest in the Audit & Assurance Analytics Specialist Assistant position at Deloitte US India. As a final-year B.Tech. student in Information Technology at Vellore Institute of Technology with a CGPA of 8.80, I bring a strong foundation in software development, data analysis, and full-stack development, along with hands-on experience through internships and live projects.

During my internships at Celebal Technologies and Adjecti Solutions, I gained practical expertise in React, Java, Spring Boot, and backend development, as well as in building responsive web applications and scalable backend architectures. My technical proficiency includes Python, SQL, Tableau, Power BI, and tools like Git and MATLAB, aligning well with Deloitte's emphasis on analytics, visualization, and automation.

I am particularly inspired by Deloitte's mission to bring client data to life through advanced analytics and its culture of innovation and growth. My strong problem-solving skills, ability to collaborate effectively, and eagerness to adapt to emerging technologies make me an ideal fit for this role. I am excited about the opportunity to contribute to Deloitte's commitment to audit quality and innovation. Thank you for considering my application. I would welcome the opportunity to discuss how my skills and experiences align with Deloitte's goals. I look forward to contributing my passion for analytics and software engineering to your esteemed organization.

Sincerely,

Diksha Dutta
